

## Outcomes for FSM students

The analysis below shows a number of things. Firstly, that the gap in attainment between 2011 and 2013 (predicted) is narrowing and in many of the measures, is narrowing significantly. Secondly, it shows that while the gap in 2011 in some measures was similar to the national gap, in a number of measures, the gap was significantly smaller. As our gap has narrowed since then, we are performing better than schools are nationally. Thirdly, it shows that the actual attainment of FSM students at Yateley is significantly higher than FSM students nationally in every respect, bar attendance where, in 2012, our small sample was skewed by a very few students.

It is also worth drawing attention to the average points scores for the best 8 GCSEs and the best 8 qualifications in 2013. In this year, the average points score for the best 8 GCSEs nationally for all students was 277.2 and for the best 8 qualifications 338.3. Therefore, our FSM students, with figures of 274.8 and 337.9, are attaining almost at the same level as all students nationally. This is confirmed by our FSM Value added score of 1000.1 – almost exactly the national average score of 1000.

**A table to show the gap between FSM and non-FSM attainment over 3 years, with 2011 National gap figures for comparison, and a comparison between Yateley FSM and national FSM attainment in 2012**

Measure of success	Gap between FSM and non-FSM				Yateley FSM/ National FSM Comparison 2012		
	2011/12	2011/12 National gap	2012/13	2013/14 (Predicted)	Yateley FSM actual 2012/13	National FSM actual 2012/13 (2011/12*)	
% of students who gained 5+A*-C incl Eng +Maths	-31	-26	-27	-16	50	36*	
Average points in English	-7.1	-6.7	-4.5	-4.7	40	33.4*	
Average points in Maths	-7.1	-7.6	-4.7	-3.7	38.4	32.9*
